Map, atlas, globe.

Language to name and describe materials.

Sticky Knowledge

We have different weather as the seasons change (sun, snow, rain, wind etc.)

Animals change as they grow older.

A baby bear is called a cub.

A habitat is where an animal lives.

Animals can live in different habitats (jungle, forest, ponds etc.)

People can live in different places (hot places, cold places, by the sea, etc.)

How to stay safe and healthy.

Facts about Easter—<https://mocomi.com/easter>
